2024

EXPERIENCE

Dedicated and patient-centered nursing professional , with clinical training in **Emergency Nursing and Critical Care**, prepared to provide safe and timely care to patients with acute, complex, and life-threatening conditions. Proficient in **rapid patient assessment, triage, continuous monitoring, recognition of clinical deterioration, medication administration, emergency interventions, infection prevention, and patient safety**. Knowledgeable in critical care practices, including **hemodynamic assessment, management of unstable patients, and close monitoring of critically ill patients**. Demonstrates strong **clinical judgment, prioritization, teamwork, communication, adaptability, and attention to detail**, with the ability to remain calm and effective in fast-paced, high-pressure environments while delivering evidence-based, patient-centered care.

INTERNSHIP / TRAINING

ICU/ER, labib medical center

may 2025–June 2025

- Evaluate patients' vital signs or laboratory data to determine emergency intervention needs.
- Monitor patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions.
- Administer medications intravenously, by injection, orally, through gastric tubes, or by other methods.
- Monitor patients' fluid intake and output to detect emerging problems, such as fluid and electrolyte imbalances.
- Prioritize nursing care for assigned critically ill patients, based on assessment data or identified needs and ensuring high quality healthcare.

ER/ICU , Makassed general hospital

august 2025– December 2025

- Delivered rapid triage and prioritized care for trauma, acute illness, and critical patients in high-pressure ER environments.
- Conducted initial patient assessments (ABCs – Airway, Breathing, Circulation) and stabilized conditions using BLS/ACLS protocols.
- Administered emergency medications (e.g., epinephrine, analgesics, anticoagulants) and performed interventions (IV access, wound suturing, CPR).
- Assisted in trauma resuscitations, code blue responses, and disaster preparedness scenarios.

Surgical floor/ER/ICU/OR, Labib medical center

December 2025 – January 2026

- Perform emergency medical procedures, such as basic cardiac life support (BLS), advanced cardiac life support (ACLS), and other condition-stabilizing interventions.
- Manage patients' pain relief and sedation by providing pharmacologic and non-pharmacologic interventions, monitoring patients' responses, and changing care plans accordingly.
- Document data related to patients' care, including assessment results, interventions, medications, patient responses, or treatment changes.
- Administer blood and blood product transfusions or intravenous infusions, monitoring patients for adverse reactions.
